Subject: Re: Spring Parklet Clean Up

We can definitely have our crew see what they can do! We should be able to take care of it tomorrow.

Thanks,

Molly

Thanks Molly. Daveed's crews were able to clear most of the debris (check out attached picture) so we can forego the power wash under the parklet at this time.

Would it be possible to power wash the area around the parklet such as around/between the two large planters and within the bike parking area?

Good Morning,

We are happy to help with this. The actual mechanics of removing the tiles and placing them back so that they are aligned and secure, however, is something that we are less comfortable with. Ideally, there is a contractor/installer available that can oversee the "reinstallation" of the tiles and direct the pressure washing? (It is my understanding that the black pedestals pictured are not secured to the ground, for example.) Robert Winston, our Project Manager, is available to discuss our thoughts on this if it would be helpful. His cell phone is [\(213\) 924-5633](tel:2139245633).

We have a pressure washing crew that could meet with the contractor/installer tomorrow (Thursday) at 7:00 am. Please confirm so that we can notify the guys.

Thank you,

Molly Larson

Would be so great to pick up all the tiles and power wash below. Thank you so much Robert, Blair and Kevin.
